

Anh-Vũ Phan, Ph.D.

Professor & Interim Chair

Office: SHEC 3132

William B. Burnsed Jr. Dept. of Mechanical, Aerospace, and Biomedical Engineering

University of South Alabama

Mobile, Alabama 36688

Phone: (251) 460-7453

Fax: (251) 460-6549

vphan@southalabama.edu

EDUCATION

Postdoctoral Research Associate, Oak Ridge National Laboratory, Tennessee, 1999-2002

Affiliation: Computer Science & Mathematics Division

Mentor: Dr. Len J. Gray

Postdoctoral Researcher, Ecole Polytechnique, University of Montreal, Canada, 1998-1999

Affiliation: Department of Mechanical Engineering

Mentors: Prof. René Mayer, Prof. Guy Cloutier and Prof. Luc Baron

Ph.D. in Mechanical Eng., Ecole Polytechnique, University of Montreal, Canada, 1997

Concentrations: Computational Mechanics, Theoretical and Applied Mechanics

Dissertation: *The boundary contour method for two-dimensional linear elasticity – Applications in stress analysis and shape optimization*

Advisors: Prof. René Mayer and Prof. Subrata Mukherjee (Cornell University)

M.S. in Solid Mechanics, Grenoble Institute of Technology (INPG), France, 1993

Concentrations: Computational Mechanics, Structural Dynamics

Thesis: *Bruits mécaniques dans la ligne d'arbre de la turbo-pompe du moteur VULCAIN d'ARIANE V*

Advisor: Prof. Georges Reynaud

B.E. in Mechanical Eng., Ho Chi Minh City University of Technology, Vietnam, 1982

Concentration: Design and Manufacturing

PROFESSIONAL EXPERIENCES

University of South Alabama, Alabama

Professor and Interim Chair, William B. Burnsed Jr. Dept. of Mechanical, Aerospace, and Biomedical Engineering, Dec. 23 – present

Professor, William B. Burnsed Jr. Dept. of Mechanical, Aerospace, and Biomedical Engineering, Jan. 23 – Dec. 23

Professor and Interim Chair, William B. Burnsed Jr. Dept. of Mechanical, Aerospace, and Biomedical Engineering, Aug. 22 – Jan. 23

Professor, William B. Burnsed Jr. Dept. of Mechanical, Aerospace, and Biomedical Engineering, Aug. 09 – Aug. 22

Associate Professor with tenure, Dept. of Mechanical Engineering, Aug. 06 – Aug. 09

Assistant Professor, Dept. of Mechanical Engineering, Aug. 02 – Aug. 06

Graduate Coordinator, Dept. of Mechanical Engineering, Aug. 03 – Aug. 19

Adjunct Assistant Professor, Dept. of Orthopaedic Surgery, Nov. 04 – Oct. 05

- Teaching Dynamics (EG 284), Mechanics of Materials (EG 315), Fundamentals of Aerodynamics (AE 361), Aircraft Structural Analysis (AE 470), Engineering Graphics and Communication (ME 135), Mechanical Engineering Thermodynamics (ME 312), Mechanical Engineering Analysis/Numerical Methods (ME 328), Mechanical Systems Design (ME 421), Dynamic Systems and Control (ME 426), Finite Element Analysis (ME 438/538), Mechanism Synthesis (ME 430/530), Vibration Analysis and Synthesis (ME 472), Applied Elasticity (ME 583), Advanced Mechanical Engineering Analysis (ME 518), Advanced Vibrations (ME 572), Special Topics: Micromechanics (ME 590), Directed Independent Study (ME 592 and SE 692).
- Advising Senior Capstone Design Project (ME 416)
- Conducting research on (a) developing boundary integral formulation for computing energy eigenvalues for the study of chaos and confined electron states in quantum systems, (b) boundary integral equations for the T -stress and dynamic T -stress, (c) dynamic fracture analysis of auxetic fiber reinforced composites, (d) numerical modeling of aligned carbon nanofiber composites, (e) the solid-phase epitaxial growth of Si-Ge alloy thin films, (f) high-strain rate fracture of heterogeneous materials with micro- and nano-fillers, (g) multi-scale symmetric-Galerkin dynamic fracture analysis, (h) finite element analysis of cyclic AMP signaling, and (i) viscoelastic finite element modeling of the human supraspinatus tendon.

Oak Ridge National Laboratory (ORNL), Tennessee

Research Staff (Computational Sciences and Engineering Division), Feb. 02 – Aug. 02

- Conducted a computational study in support of the Nuclear Regulatory Commission-sponsored verification and validation of the FAVOR probabilistic fracture mechanics code developed at ORNL

- Conducted stress analysis of a biaxial fracture specimen in support of a project with Exxon-Mobil

ORNL (through Oak Ridge Associated Universities), Tennessee

Postdoctoral Research Associate (Computer Science & Math. Division), May 99 – Jan. 02

- Developed the symmetric-Galerkin boundary element method (SGBEM) for 2-D and 3-D elasticity, and for Stokes flow with primary applications to fracture simulations for thermal barrier coatings and functionally graded materials
- Modeled the interface growth instability of the solid phase epitaxy in stressed intrinsic and boron-doped silicon thin films, using the coupling of the SGBEM for anisotropic materials, Stokes flow and level set methods
- Further developed the boundary contour method (BCM) with applications to Stokes flow problems, incompressible elastic materials, and analysis of thin films and layered coatings

Ecole Polytechnique, University of Montreal, Canada

Postdoctoral Researcher (Dept. of Mechanical Engineering), Jan. 98 – April 99

- Conducted research on finite element simulations of machining processes
- Studied a three-dimensional elastic model of virtual milling machines

Research assistant (Dept. of Mechanical Engineering), Sept. 96 – Dec. 97

- Conducted research on stress analysis and shape optimization using the BCM

Cornell University, New York

Visiting Research Assistant (Dept. of Theoretical & Applied Mechanics), Summer 1996

- Conducted research on the BCM with new shape functions

Ho Chi Minh City University of Technology, Vietnam

Lecturer and Associate Dean (Faculty of Mechanical Engineering), 1993 – 1994

- Taught undergraduate (Machine Component Design) and graduate (Finite Element Method in Solid Mechanics, Geometric Modeling) courses
- Coordinated department-wide curricula
- Advised undergraduate students

Renault, Ho Chi Minh City, Vietnam

Consulting Engineer (part-time), 1993

- Studied failure mechanisms associated with typical operating conditions in Vietnam such as poor road conditions and tropical climate
- Recommended new design consideration for improved reliability in the Vietnamese market

Grenoble Institute of Technology (INPG), France

Research assistant, May 92 – June 93

- Developed a new FEM formulation for structural and rotor dynamics to determine the hydraulic load from the measured internal forces on the rotor of a new hydrogen pump model developed at the European Society of Propulsion

Ho Chi Minh City University of Technology, Vietnam

Lecturer (Faculty of Mechanical Engineering), 1984 – 1992

Assistant Lecturer (Faculty of Mechanical Engineering), 1982 – 1984

- Taught undergraduate courses (Machine Component Design, Machine Component Design Project, Strength of Materials, Computer-Aided Design and Drafting using AutoCAD)
- Advised undergraduate students
- Conducted research on computer-aided machine design, on design of mechanisms for impulsive stepless variators, and on a computerized system for pattern digitizing, marker making and plotting in the garment industry

SKILLS

Languages

- Reading and speaking knowledge of English, French and Vietnamese
- Reading knowledge of Russian

Computers

- Platforms: DOS/Windows, Linux and UNIX
- Programming languages: C/C++, Python, FORTRAN and HTML
- Packages: ABAQUS, Algor, ANSYS, AutoCAD, CATIA, I-DEAS, Maple, MATLAB, PATRAN

HONOR AND AWARDS

- Certificate of Outstanding Contribution in Reviewing, Journal “Engineering Analysis with Boundary Elements”, 2018.
- Recognition Award for One of the 50 Outstanding Research during the First 50 Years of the University of South Alabama, 2013.
- Phi Kappa Phi Scholar of the Year Award, University of South Alabama Chapter, 2010.
- Professor of the Year Award, The Alabama Epsilon Chapter of Tau Beta Pi, 2010.
- Excellence in Research Award, University of South Alabama College of Engineering, 2008.
- Best Faculty Member Award, University of South Alabama Council of International Students Organization, 2004-2005.
- Ralph E. Powe Junior Faculty Enhancement Award, Oak Ridge Associated Universities, 2004.
- Who’s Who in American Education, 8th Edition, 2007.
- Who’s Who in America, 58th Edition, 2004.
- Who’s Who in Computational Science and Engineering, 2006.
- AcademicKeys Who’s Who in Engineering Education (WWEE), 2005.
- Post-doctoral Research Associates Fellowship, ORNL, 1999-2002.
- Post-doctoral Fellowship, Ecole Polytechnique, University of Montreal, 1998-1999.
- Research Assistantship, Ecole Polytechnique, University of Montreal, 1996-1997.
- Bourse d’Excellence (Ph.D. Fellowship), Government of Quebec, Canada, 1994-1997.
- Bourse de Stage (Graduate Fellowship), Government of France, 1992-1993.

PROFESSIONAL ACTIVITIES

Editorial Board & Related Service

- Guest Editor, Special Issue on the Advances in Mesh Reduction Methods - II, *Engineering Analysis with Boundary Elements*, 2011
- Guest Editor, Special Issue on the Advances in Mesh Reduction Methods - I, *Engineering Analysis with Boundary Elements*, 2010
- Editorial Board Member of Discover Applied Sciences (Engineering)
- Editorial Board Member of ISRN Applied Mathematics

- Editorial Board Member of Advances and Applications in Mechanical Engineering and Technology
- Editorial Review Board Member of Scientific Journals International (SJI)
- Editorial Advisory Board Member of The Open Medical Informatics Journal

Professional Societies

- Member of the American Society of Mechanical Engineers (ASME)
- Member of the United States Association for Computational Mechanics (USACM)
- Member of the International Association for Computational Mechanics (IACM)
- Member of the International Society of Structural and Multidisciplinary Optimization (ISSMO)
- Member of the Honor Society of Phi Kappa Phi by election

Technical Sessions Developed, Chaired & Symposia/Workshops Organized

- Structures and Materials Committee Member of the 7th European Conference for Aeronautics and Space Sciences (EUCASS 2017), Milan, Italy, July 3-6, 2017.
- Structures and Materials Committee Member of the 5th European Conference for Aeronautics and Space Sciences (EUCASS 2013), Munich, Germany, July 1-5, 2013.
- Scientific Committee Member of the 2011 Symposium of the International Association for Boundary Element Methods, Brescia, Italy, September 5-7, 2011.
- Co-organizer and Session Chairman for the minisymposium on Advances in Boundary Element Methods at the 11th U.S. National Congress on Computational Mechanics, Minneapolis, Minnesota, USA, July 25-29, 2011.
- International Scientific Advisory Board Member of the 12th International Conference on Boundary Element and Meshless Techniques, Brasilia, Brazil, July-15, 2011.
- Organizing Committee Member and International Advisory Committee Member of the NSF Workshop on the Emerging Applications and Future Directions of the Boundary Element Method, University of Akron, Cleveland, Ohio, USA, September 1-3, 2010.
- Scientific Advisory Committee Member of the 11th International Conference on Boundary Element Techniques, Berlin, Germany, July 12-14, 2010.
- Session Co-Chairman for the minisymposium on Advances in Boundary Element Methods at the 10th U.S. National Congress on Computational Mechanics, Columbus, Ohio, USA, July 16-19, 2009.

- Session Co-Chairman for the minisymposium on Advances in Boundary Element Methods at the 9th U.S. National Congress on Computational Mechanics, San Francisco, California, USA, July 23-26, 2007.
- Session Co-Chairman for the minisymposium on Advances in Boundary Element Methods at the 8th U.S. National Congress on Computational Mechanics, Austin, Texas, USA, July 24-28, 2005.
- Chairman for the session on ‘Magnetic Composites and Thin Films’ at the 11th Annual International Conference on Composites/Nano-Engineering (ICCE-11), Hilton-Head Island, South Carolina, USA, August 8-14, 2004.

Professional Service

- Reviewer for Air Force Office of Scientific Research (AFOSR)
- Reviewer for International Journal for Numerical Methods in Engineering
- Reviewer for Communications in Numerical Methods in Engineering
- Reviewer for International Journal of Solids and Structures
- Reviewer for Engineering Fracture Mechanics
- Reviewer for ASME Journal of Applied Mechanics
- Reviewer for ASME Journal of Dynamic Systems, Measurement and Control
- Reviewer for Materials Science and Engineering A
- Reviewer for Engineering Analysis with Boundary Elements
- Reviewer for Applied Mathematical Modelling
- Reviewer for Mechanics Research Communications
- Reviewer for Proceedings A
- Reviewer for Simulation: Transactions of the Society for Modeling and Simulation International
- Reviewer for CMES: Computer Modeling in Engineering & Sciences
- Reviewer for Advances in Engineering Software
- Reviewer for Experimental Mechanics
- Reviewer for Computational Geosciences
- Reviewer for Journal of Materials Engineering and Performance
- Reviewer for Structural Engineering and Mechanics

- Reviewer for SN Applied Sciences
- Reviewer for Technology and Health Care
- Reviewer for Journal of Forensic Biomechanics
- Reviewer for MECCANICA: International Journal of the Italian Association of Theoretical and Applied Mechanics AIMETA
- Reviewer for Electronic Journal of Boundary Elements
- Reviewer for ISRN Applied Mathematics
- Reviewer for Kuwait Journal of Science & Engineering
- Reviewer for The Open Medical Informatics Journal
- Reviewer for IEEE Engineering in Medicine and Biology Magazine
- Reviewer for 2009 ASME International Mechanical Engineering Congress & Exposition (IMECE09)
- Reviewer for ASME Early Career Technical Conference 2009 (ECTC'09)
- Reviewer for ASME Early Career Technical Conference 2007 (ECTC'07)

INVITED SEMINARS

- ‘A Hybrid Technique for Transient Analysis of Crack-Inclusion Interaction’, Department of Civil Engineering, Architecture, Land and Environment, University of Brescia, Italy, October 28, 2009.
- ‘Multiscale Dynamic Fracture Analysis of Particulate Composites’, Department of Mechanical, Materials and Aerospace Engineering, University of Central Florida, July 3, 2008.
- ‘On Fracture Analysis using the Symmetric-Galerkin Boundary Element Method’, Department of Mechanical, Auburn University, September 3, 2004.
- ‘Shape Design Optimization using the Boundary Contour Method’, Centre for Research on Computation and its Applications (CERCA), Montreal, Canada, November 18, 1998.
- ‘On FEM- and BEM-based Meshless Methods’, Department of Mechanical, Ecole Polytechnique, University of Montreal, Canada, June 19, 1997.

UNIVERSITY SERVICE (at the University of South Alabama)

1. University level:

- Founding Faculty Advisor, The University of South Alabama Chapter of the Society of Asian Scientists and Engineers (SASE, 2023-2024)
- Faculty Senate (2013-2016)
- University Grievance Committee (2014-2015)
- Evaluator of the Vietnamese language for the Department of Foreign Languages and Literatures (since 2005)

2. College level:

- Interim Chair of the Department of Mechanical, Aerospace, and Biomedical Engineering (Dec. 2023 -)
- Interim Chair of the Department of Mechanical, Aerospace, and Biomedical Engineering (Aug. 2022 - Jan. 2023)
- Chair Search Committee (2021-2022)
- Associate Dean Search Committee (2020-2021)

- Ad Hoc College/University Vision Statement Committee (2020-2021)
- Graduate Affairs Committee (2003-2019)
- Chair of the College Faculty Affairs Committee (2016-2017)
- College Faculty Affairs Committee (2015-2019)
- Chair of the College Promotion and Tenure Committee (2013-2014)
- College Promotion and Tenure Committee (2009-2015,2018-2022)
- Engineering Computing Committee (2007-2010)
- Chair Search Committee (2004-2005)

3. Department level:

- Comprehensive Chair Review Committee (2020-2021)
- SAE Faculty Advisor (2019-2020)
- Graduate Coordinator (2003-2019)
- Chair of the Graduate Admission Committee (2017-2019)
- Chair of the Curriculum Committee (2016-2018,2023-)
- ECE Department Promotion Committee (2023-2024)
- CCEE Department Ad-Hoc Promotion Committee (2016-2017)
- Chair of the Mid-Tenure Committee (2016-2017,2018-2020)
- Chair of the Promotion and Tenure Committee (2019-2020)
- Chair of the Promotion and Tenure Committee (2015-2016)
- Mid-Tenure Committee (2020-2021,2023-2024)
- Promotion and Tenure Committee (2017-2018)
- Promotion and Tenure Committee (2014-2015)
- Chair of the Faculty Search Committee (2019-2020)
- Chair of the Faculty Search Committee (2017-2018)
- Chair of the Faculty Search Committee (2015-2016)
- Chair of the Faculty Search Committee (2014-2015)
- Chair of the Faculty Search Committee (2013-2014)
- Chair of the Faculty Search Committee (2011-2012)
- Faculty Search Committee (2010-2011)
- Open House Committee (2004-2009)
- Chair of the Comprehensive Examination Committee (2004-2006,2014-2019)

UNIVERSITY COURSES TAUGHT (at University of South Alabama)
