Dear Friend of Student Affairs,

It gives me great pleasure to provide an annual report for the Division of Student Affairs at the University of South Alabama. This past year of accomplishments and activities have provided us with the distinct opportunity of partnering with various entities to offer an out-of-class experience for students that engages them with their institution and its academic mission.

Through our vision, mission, and value statements, we aim to have a major impact on the university priorities for student success and university/community engagement.

Feel free to visit us at southalabama.edu/studentaffairs to view this report online.

Sincerely,

Michael A. Mitchell, Ph.D.

STUDENT CONDUCT

The Office of Student Conduct is designed to promote, manage, and maintain a safe and thriving campus community to academic excellence. University policies and standards are balanced with the educational development of its individual students by strengthening the concepts of social justice, global consciousness and citizenship, proper decision making, conflict management and resolution, restoration, civility, respect for self and others, accountability, integrity, and ethical development.

WHAT WE DO

The Office of Student Conduct, along with the University Disciplinary Committee (UDC) is tasked with providing effective, efficient, fair, and consistent due process procedures; investigating allegations of misconduct; adjudicating cases; resolving non-academic disciplinary matters; and, when necessary, imposing sanctions for violations of the Code of Student Conduct published in The Lowdown.

OUR PHILOSOPHY

When students act discordantly with values identified in The Lowdown and other university policies, they have an obligation to repair harm caused to the community and its members. The Office of Student Conduct uses educational measures in our campus community to resolve the broken relationship and to guide the student or organization back into good standing with the university. These measures are intended to reshape the student's or organization's understanding of the values identified in The Lowdown and our community. The student conduct process includes victims (complainants/impacted parties), offenders (respondents), and members of the community (affected parties) collaborating to hold offenders accountable for their actions.

OUR GOALS

- Resolve complaints promptly and in an equitable manner
- Help respondent to accept and acknowledge responsibility for their offenses
- Help students find solutions to repair the harm they caused to victims and the community
- Work to reduce the risk of re-offense through reintegrating the offender back into the university community by (re)building positive social ties to the community.
